

2020 SAFETY ALERT – KNIVES

- Knives like the below are periodically found in our facilities, they are not acceptable and can cause pretty serious cuts.

- Please ensure that all of your associates know the expectation and that they have access to the correct types of knives/blades for your facility (examples below).

NOTE: A great way to find out if someone has the correct knife is to just walk up to them and ask, "Can I borrow your knife for a second?"
